

# HAWAII PACIFIC NEUROSCIENCE

**Fully Integrated Multidisciplinary  
Neuroscience Team**

**Kore Kai Liow, MD** (Neurology, Epilepsy, EEG, Video-EEG)  
**David Kaminskas, MD** (Neurology, Headache & Facial Pain, Stroke)  
**Panida Piboolnurak, MD** (Neurology, Parkinson, Tremors, Movement)  
**Irisa Devine, MD** (Pediatric Neurology, Neuromuscular Disorder, EMG)  
**Pat Borman, MD** (Neuro-Geriatrics, Dementia & Cognitive Dis)  
**Thomas Harding, PsyD** (Neuropsychology, Cognitive Neuroscience)  
**Keith Pedro, PsyD** (Neuro-Behavioral Health, Psychology, CBT)  
**Katrina Moss, PsyD** (Neuropsychology, Research, Clinical Trials)  
**Tiffany Sandoval, PhD** (Neuropsychology, Research, Clinical Trials)  
**Steve Blake, ScD** (Neuroscience, Research, Nutrition)  
**George King, PhD** (Neuroscience, Research, Clinical Trials)  
**Paul Adapon III, MD** (Neuroscience Research, Clinical Trials)

## New Patient Referral Form

### Reason for Referral:

- |  |  |  |
|--|--|--|
| <input type="checkbox"/> Headache          | <input type="checkbox"/> Stroke/TIA          | <input type="checkbox"/> Seizure/Syncope                       |
| <input type="checkbox"/> Memory Evaluation | <input type="checkbox"/> Tremors/Parkinson's | <input type="checkbox"/> Concussion/Brain Injury               |
| <input type="checkbox"/> Dizziness/Vertigo | <input type="checkbox"/> Pain/Weakness _____ | <input type="checkbox"/> Neuropathy                            |
| <input type="checkbox"/> Geriatric         | <input type="checkbox"/> Palliative Care     | <input type="checkbox"/> Pediatric Neurological Disorder _____ |

### Service/Procedure:

- |  |   |  |
|--|---|--|
| <input type="checkbox"/> EEG Only                  | <input type="checkbox"/> Video EEG Only             | <input type="checkbox"/> Ambulatory EEG Only |
| <input type="checkbox"/> EMG Only                  | <input type="checkbox"/> Botulinum Toxin            | <input type="checkbox"/> Capacity Evaluation |
| <input type="checkbox"/> Neuropsychology Test Only | <input type="checkbox"/> Psycho & Cognitive Therapy | <input type="checkbox"/> Other _____         |

### Location:

- Honolulu/Leeward (St Francis Liliha)       Windward (Castle Medical Center)

**Documents needed: Office notes, pertinent lab results and relevant imaging reports.  
 Appointments will not be scheduled until all pertinent records are obtained.**

**Phone: (808) 261-4476 Fax: (808)263-4476 or (808)-261-7000

## Locations

### Honolulu

St. Francis Medical Center  
2230 Liliha Street  
Honolulu, HI 96817

### Windward

Castle Medical Center  
642 Ulukahiki Street, Suite 300  
Kailua, HI 96734

### Hours of Operation:

Monday – Friday: 8:30am-5:30pm

Saturday: 8:30am-3:00pm

---

### Procedures:

**Electromyography (EMG)** is a technique for evaluating and recording the electrical activity produced by skeletal muscles.

*Please remember:* Please wear a modest short sleeve shirt and appropriate length shorts. Also, please avoid the use of lotions or oils on your skin. **Time: 60 min**

**Electroencephalograph (EEG)** is a test that detects electrical activity in your brain using small, flat metal discs (electrodes) attached to your scalp.

*Please remember:* Please come to your visit with clean, dry, product-free hair modest dress w a jacket to keep comfortable. **Time: 45 min**

**Video EEG (VEEG)** is the use of video cameras to capture visually the onset and characteristics of seizures.

*Please remember:* Please come to your visit with clean, dry, product-free hair. **Time: Length of testing determined by physician. Please bring change of clothes if overnight stay is planned.**

**Ambulatory EEG (AEEG)** monitoring is a relatively recent technology that allows prolonged electroencephalographic (EEG) recording in the home setting.

*Please remember:* Please come to your visit with clean, dry, product-free hair. **Time: 23-48 hours (at home)**

**Botulinum Toxin (BOTOX)** is a prescription medicine that is injected into seven key areas of both the head and neck to prevent headaches.

*Please remember:* Please avoid this treatment if you're experiencing a fever. **Time: 30 Min**
