New Patient Referral Form

Reason of Referral:

Procedure ONLY (Specify below)

EMG

EEG

Video EEG

Sleep Studies (PSG)

MSLT/MWT Evaluation

Preferred Location

Honolulu

West Oahu

Fill Demographics

☐ **Translator Needed** if so, Language: _____

(if applicable)

Referring Physician:_____P:_____F:_____

Primary Physician: P: F:

Worker's Compensation (Note: We serve as Concurrent Care Only):

Insurance Name:

Claim #: _____

Date of Injury: _____

Employer: _____

Adjuster's Name: _____

Adjuster's Phone #: _____ Fax Number #: _____

Nurse Case Manager: _____

Treating Physician: _____

No Fault Information:

Insurance Name:

Claim #: _____

Date of Injury:

Adjuster's Name: _____

Adjuster's Phone #: _____

Fax Number #: _____

Locations

Honolulu

St. Francis Liliha 2230
Liliha Street, Suite 104
Honolulu, HI 96817

West Oahu

Waikele Professional Center
94849 Lumiaina Street, Suite 203
Waipahu, HI 96797

Hours of Operation:

Monday – Saturday: 8:30am-5:00pm

Procedures:

Electromyography (EMG) is a technique for evaluating and recording the electrical activity produced by skeletal muscles.

Please remember to wear a modest short sleeve shirt and appropriate length shorts. Also, please avoid the use of lotions or oils on your skin. **Time: 60 min**

Electroencephalograph (EEG) is a test that detects electrical activity in your brain using small, flat metal discs (electrodes) attached to your scalp.

Please arrive to your visit with clean, dry, product-free hair. We recommend that you dress modestly and bring a jacket to keep comfortable. **Time: 60 min**

Video EEG (VEEG) is the use of video cameras with EEG to capture visually the onset and characteristics of seizures.

Please arrive to your visit with clean, dry, product-free hair.

Time: Length of testing determined by physician. Please bring change of clothes if overnight stay is planned.

Polysomnography (PSG) is the various types of sleep studies to diagnose sleep disorders.

Please arrive to your visit with clean, dry, product-free hair, and avoid the use of lotions or oils on your skin.

Time: Overnight Stay from 8pm till 5:45am.

Botulinum Toxin is a prescription medicine that is injected into seven key areas of both the head and neck to prevent headaches.

Please avoid this treatment if you're experiencing a fever. **Time: 30 Min**

Time: Dependent on scope of procedure
